EXPERIENCE

BOSTON CONSULTING GROUP (April 2026)

Student Consultant – LEF/ BCG CX Field Immersion (April 2026)

- Evaluated in-store customer journeys across two luxury brands, identifying gaps in customer experience and technology integration, and synthesizing insights into 4 key recommendations on how to integrate AI into current processes

New York, NY
2026

REMY COINTREAU

Student Product Strategy Consultant – Luxury Approach Masterclass (December 2025 – January 2026)

- Defined QR-enabled product experience for Louis XIII to engage younger consumers through partnerships and pairings
- Built a prototype across 6+ screens to demonstrate end-to-end user journey and post-purchase engagement (Claude Code, Canva)

New York, NY
2025-2026

ACCENTURE

Management Consultant (November 2022- January 2025)

- Advised a Fortune 100 manufacturer on a global technology strategy; led product selection across 16 criteria including AI capabilities, securing executive and cross-functional stakeholder alignment, and winning \$2M+ subsequent implementation work
- Developed a business case for AI-driven forecasting at a Fortune 150 foodservice client, projected 15% accuracy improvement, 10% idle cash reduction, and enhanced liquidity planning, influencing product investment decisions
- Led current-state documentation and maturity assessment for a global treasury operating model at a Fortune 50 technology company, making strategic recommendations that supported \$1.2M in projected annual savings
- Partnered with executive and technical teams to execute a large-scale global digital transformation for a Fortune 100 mining company via TMS implementation, enhancing visibility across 75+ accounts and cutting manual effort by 40%
- Built scalable GTM enablement assets for Accenture's Treasury and Risk solutions and supported performance tracking against revenue and pipeline targets, accelerating sales cycles and contributing to 3 new clients and \$5M+ pipeline growth

New York, NY
2022-2025

KPMG

Senior Associate (October 2021- November 2022)

- Led a cross-functional team designing a \$676M federal relief program strategy, incorporating quantitative analysis and actuarial-informed assumptions to define eligibility criteria, forecast funding needs, and establish measurable success metrics for U.S. Treasury approval
- Drove a process transformation initiative to bring automation to a premier government client by identifying business requirements, overseeing UAT, and gathering data requirements; this initiative ended up saving the client \$3 million a year
- Served as PMO lead for State of Florida engagements, driving cross-functional alignment and managing timelines and dependencies to ensure on-time delivery across multiple workstreams

New York, NY
2019-2022

Associate (October 2019- October 2021) - Received highest annual performance rating in 2020 and 2021

- Conducted a current and target state analysis to address low engagement in an underperforming government program; implemented process enhancements and launched a stakeholder adoption campaign; resulted in a 3x increase in program participation
- Increased project profitability by 20% per resource hour managing 65 onshore resources across 9 projects; built PowerBI dashboards to track OKRs and report to leadership

SELECTED AI PROJECTS

Full portfolio website - <https://anniesweta2340.github.io/portfolio/> (Built with Claude Code and Canva)

AI CHIEF OF STAFF FOR STUDENTS - KAISEY

Anthropic x CBS x NYU Claude Hackathon – Team of 4 (April 2026)

- Co-built an AI-powered student life manager integrating Claude, Linkup, Google Calendar, and the Oura API to help students manage recruiting, academics, social, and fitness; built using Claude Code

THE PRESS ROOM – COMPETITIVE INTELLIGENCE TOOL (June 2026)

Profound Hackathon – Selected as 1 of 50 participants from 250 applicants

- Built an AI powered competitive intelligence tool analyzing ~13,700 citations to surface a non-obvious market positioning gap and quantify it as a modeled revenue at risk figure with transparent assumptions
